Bulgars Put Up Stubborn Defense of
Monastir Against Fierce Attacks
of the Allies

LONDON, Sept. 21.—Terrific counter attacks launched by the Germans against the British positions held by the New Zealand troops south of the Ancre, were repulsed with severe losses to the enemy, the war office announced today.

The war office report follows:
"South of the Ancre strong enemy counter attacks were made continuously during the night on the positions held by the New Zealand forces. All were beaten off with severe loss to the enemy, who left a number of prisoners in our hands and a large number of dead in front of our lines. We advanced our front in this neighborhood.
"Several successful minor enterprises were carried out during the night. Enemy's trenches at many places were entered."

PARIS, Sept. 21.—Substantial gains by the French and Servians in the fighting in Saloniki and repulse of the Bulgarians was reported today by the French war office.

A violent counter attack by the Bulgarians on Kaimakalan was repulsed. A vigorous counter offensive by the Servians succeeded in driving out the Bulgarians who had penetrated as far as Boreas. The French made a gain of five kilometers to the west of Plozier.

PARIS, Sept. 21.—Continuing their attacks against German positions in the Verdun sector, the French forces have captured two enemy trench elements at Thiaumont and have advanced their positions one hundred yards in the Apremont forest.
There is a lull in operations on both sides of the Somme, due to the bad weather.

BULGARS MAKE STAND.

Put Up Stubborn Defense of City of
Monastir.

LONDON, Sept. 21.—Bulgarians retreating before the allied forces on the Macedonian front are preparing for a great battle before Monastir. Despatches to the Central News today told of preparations being made by the Bulgarians to put up a stubborn defense of the city.

The Bulgarians are retreating all along the line and are endeavoring to form a new line of defense by entrenching. The Servians anticipated this move and are harassing the retreating forces continuously, determined to prevent them from entrenching themselves at any point.

Military authorities here declare that it will be some time before Monastir will fall.
The Servians have been victorious in fighting at Kaimakalan. The capture of four machine guns by them was reported today.

SOFIA, Sept. 21.—Bulgarian counter attacks threw back the allied forces in Macedonia, the war office announced today. The enemy suffered heavy losses and many prisoners were taken.

In Dobrudja the battle is being fought with great stubbornness. The war office statement follows:

"In Macedonia the fighting in the Florina sector is developing to our advantage. By counter attacks the enemy was thrown back with heavy losses and left many prisoners in our hands.

"On the Rumanian front the battle is continuing with great stubbornness. The enemy maintained his position which is powerfully fortified. "Elsewhere on the fronts the situation is unchanged."

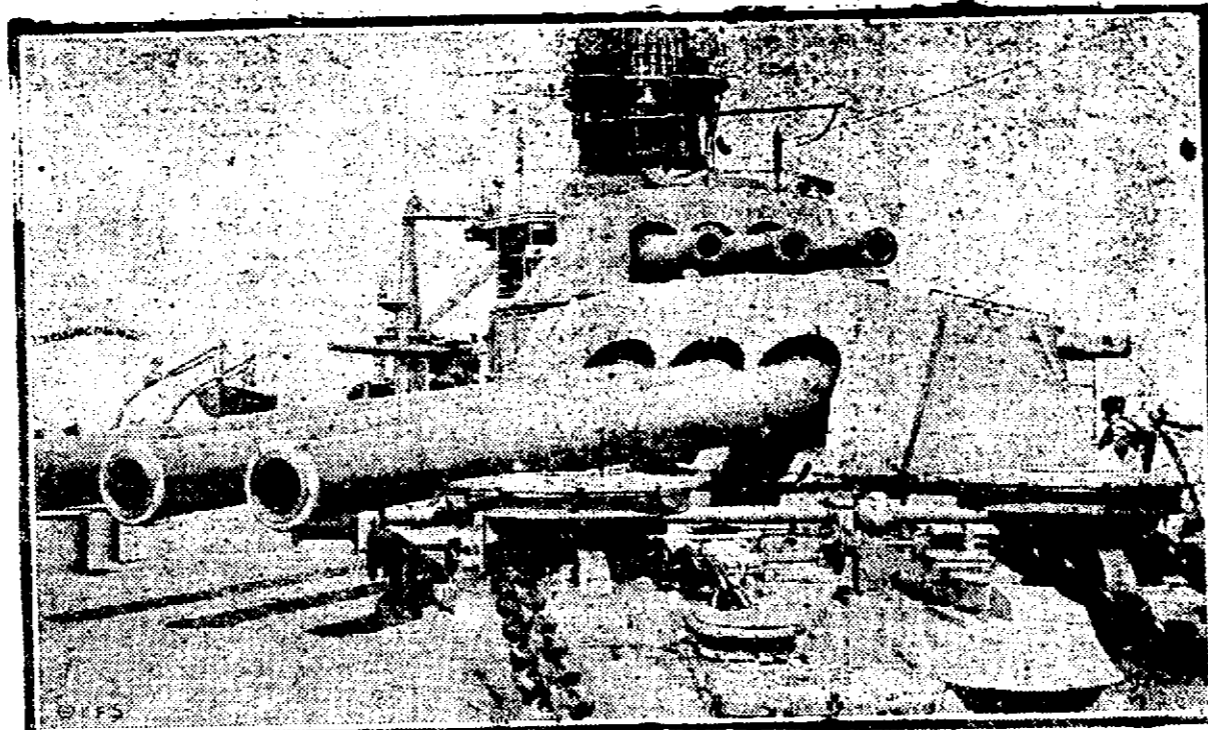

LONDON, Sept. 21.—Arrested in Berlin on a charge of seditious anti-war agitation 130 socialists have been forcibly impressed into military service, according to a despatch to the wireless press from Zurich today. Although above the age limit and declared to be unfit for military service, the socialists were turned over to the military authorities soon after their arrest. After a few weeks drilling they were sent to the front.

A conference of German socialists was called in Berlin today. It was said that differences of opinion about the war would be taken up. The conference was private.

Warship's 14-Inch Guns Hit Target Even Miles Away

These great 14-inch rifles of the United States battleship Pennsylvania scored five targets out of 12 shots at a distance of 20,000 yards in Chesapeake bay.

That record may make her the most formidable battleship in the world, not excepting the five British warships of the Warspite and Queen-Elizabeth class,

which carry 15-inch guns. The target was the sunken hulk of the San Marcos, formerly the battleship Texas, which lies off Tangier Sound in the Chesapeake.

DRIVES AUTO WHILE
HE IS INTOXICATED
FINED AND JAILED

CLEVELAND, Sept. 21.—J. Milton Dyer, city hall architect, before Police Judge Phillips for driving an automobile while intoxicated, today was fined \$50 and costs and sentenced to 45 days in the county jail.

Judge Phillips then suspended Dyer from the sentence and further placed Dyer on probation for three months, during which time Dyer must not drive a motor vehicle. If Dyer violates his probation order he must serve all of the 45 days, the judge ruled. The 20 days must be served in either instance.

In sentencing Dyer Judge Phillips announced a new policy in punishing violators of the traffic laws.

"If automobile owners cannot drive carefully I shall forbid their driving for specified periods," he said. "Reckless drivers who endanger the lives of pedestrians hereafter will be placed on prohibition."

OLATHE, Kansas, Sept. 21.—Bert Dudley, an ex-convict, who was convicted of murdering Henry Muller and his wife near here, was taken from the Johnson county jail early today by an armed mob and lynched.

Dudley was a white man. The mob came to the jail shortly after midnight and forcibly took the prisoner. He was strung up to a telegraph pole. Feeling against Dudley has been running high since the murder of the Mullers on August 20.

Dudley went to his death screaming curses and imprecations at his slayers. The job was completed in a few minutes and the mob dispersed in automobiles as it had come. It is believed most of the band were citizens of Stillwell, a small village near the Mullers farm. Dudley was taken from the jail only after a hard fight with Sheriff Lon Carroll and members of the city fire department. The sheriff refused to deliver his prisoner when the mob demanded him, but he was seized and overpowered.

The firemen came with hose and attacked the crowd. They were cowed at pistol points. Armed with sledges and axes, the masked men then began to batter down the doors of the jail and soon had their man. A rope was thrown about his neck and he was led a quarter of a mile from town and strung up.

KILLED AT CROSSING.

FREMONT, O., Sept. 21.—Walter Whitely, 57 years old, a well-to-do farmer residing northwest of town, was killed by a switching Nickel Plate freight train at a crossing near Green Springs. Whitely was hauling stone and failed to observe the train.

ARE BRITISH "TANKS" MERELY BIG ARMORED FARM TRACTORS?

CATERPILLAR TRACTOR.

NEW YORK, Sept. 21.—Wide-spread and apparently systematic violence, more determined and serious than any that has gone before, marked the traction strike today.

With no settlement of the difficulty in sight. A subway train and several elevated trains were attacked in the early hours and bottles and stones hurled through the windows. Police reserves did their best to cope with the strike sympathizers and several arrests were made.

Samuel Gompers, head of the American Federation of Labor, is taking an active part in efforts to prevent the calling of a general industrial strike set for Monday and Tuesday, which would involve 800,000 workers in the metropolitan district.

Gompers heads a delegation of union leaders who will confer this afternoon with a sub-committee of the citizens' committee of 75. Theodore Shonts, president of the Interborough, following a conference with Mayor Mitchell still refused to deal with the carmen's union, and prospects for any sort of agreement were not considered bright.

Labor leaders continue to insist that, unless a settlement of the traction strike be reached by 2 o'clock tomorrow afternoon the general industrial tie-up will be called next week.

Violence on the part of the strikers and their sympathizers increased during the day. Heavy details of police reserves were held in readiness in subway stations and other strategic points and a systematic patrol was maintained on the roofs along the elevated lines.

For the second time since the strike began, a subway train was attacked. A Broadway train on the elevated at Manhattan street was stormed from a roof and several passengers were cut by glass.

A woman passenger was seriously hurt when a southbound Sixth avenue elevated train was showered with missiles at 132nd street. Five northbound Sixth avenue trains were stoned during the early hours and one man seriously injured by flying glass.

Members of the Klingler family tried to calm him, but were unsuccessful in their attempts. He remained in the Klingler home for about two hours and seemed to be growing more excited as he rambled on in an insane sort of way in regard to his trouble. Attempts to side-track him from this subject were of no avail.

About 7:30 o'clock, he went to the home of Mrs. C. B. Phillips, just west of the Klingler home, and telephoned a neighbor of his wife. On inquiring whether his former wife was at home, he was informed that she was not. "I suppose she has gone fishing," he said, according to Mrs. Phillips.

After leaving the Phillips home, he was seen by Mrs. Klingler to pass through the back lot of the latter's home, and it is believed that he immediately went to the creek, where his former wife was in the habit of fishing.

VICTIM TELLS OF ATTACK.

In a voice scarcely audible, the victim of the ice pick wounds informed police that while fishing in the river this morning, her former husband found her and threatened her with death unless she acceded to his request to again live with him. On giving him a negative answer, she was pushed into the creek, after he had stabbed her several times.

She stated that although the water was very shallow, she had to summon all her strength to gain the shore again. Here she was met by her enraged husband, who again attempted to push her in, after striking her with the ice pick. She managed to grab hold of his clothing and dragged him into the water with her.

After he had loosened her hold on his clothing, he left her lying in the water in a semi-conscious condition, and went to his home on Pearl street. On regaining consciousness, she summoned her strength and managed to make her way to her home, about ten blocks away. She stated that she was forced to rest several times on the way because of her weakened condition, due to the loss of blood.

Nothing was known of the tragic end of the husband until the arrival of police at the Blaine home, about 9:30 this morning. On opening the door they found the body, cold from death, lying face downward on the floor near the door.

According to Mrs. Blaine, her daughter heard the sound of something falling in the room that he occupied, but at that time thought nothing of it, as he was in the habit of going and coming as he pleased. Entrance to

Autopsy On Body of Rable May Reveal
Poison; Heart Disease Probable
Cause of Death

Drs. Frank Steiner and E. G. Weadock, who held an autopsy over the body of Adolph Rable this afternoon, stated that the cause of death was probable due to a blood clot in the heart. Conditions of the heart and stomach will be given to Coroner Curtiss, who will pronounce the cause of death as soon as he returns to the city.

Negligence on the part of police has again resulted disastrously, according to the report of neighbors in the vicinity of the Anna Rable home, at 1018 North Jefferson street. This report is verified by W. P. Gilmore, son of Mrs. Adolph Rable, following the stabbing five times, this morning, by her former husband.

When police reached the home of the probably fatally wounded woman, half an hour after it was reported at headquarters, and were directed to the home of Mrs. P. Blaine, at 496 Pearl street, where the husband lived, they found his lifeless body lying face downward on the floor. Although at first it was believed he had committed suicide, the absence of marks of violence on his body or evidence of his having taken poison, caused police to believe that death resulted from heart trouble.

DOMESTIC TROUBLE CAUSE.

Matrimonial troubles are believed to have been the cause of the stabbing. The two were unable to get along together, and some months ago the wife filed suit for divorce. During the trial of the case he made some startling charges against his mate. It is said that she admitted having been caught in a room with a man known as Rumsey, during the hearing. The husband stated that this was one of the reasons that he did not like to have her keep boarders.

Walter Peltier, while collecting accounts for his grocery this morning, was the first to learn of the serious condition of Mrs. Rable, when he stopped at her home on a business call. She requested him to call a physician, and he immediately called Dr. E. G. Weadock. The latter stated that two of the wounds put her life in a precarious condition, but that she might survive unless pneumonia set in. Three more wounds were found on the right side, one under the collar bone and the remaining two in the breast.

Mrs. O. J. Klingler of 486 Pearl street, stated that Mr. Rable visited her home about 5:30 o'clock this morning, and seemed to be highly excited. He continually talked of trouble with his divorced wife and repeatedly stated to her husband that he intended to kill her.

Taking from his pocket a document sent him by his former wife's attorney, he asked Mrs. Klingler to read it. She stated that it notified him that the alimony was due Mrs. Rable. "I want my wife to live with me and I will kill her before I will pay her alimony," he said, according to Mrs. Klingler.

Members of the Klingler family tried to calm him, but were unsuccessful in their attempts. He remained in the Klingler home for about two hours and seemed to be growing more excited as he rambled on in an insane sort of way in regard to his trouble. Attempts to side-track him from this subject were of no avail.

About 7:30 o'clock, he went to the home of Mrs. C. B. Phillips, just west of the Klingler home, and telephoned a neighbor of his wife. On inquiring whether his former wife was at home, he was informed that she was not. "I suppose she has gone fishing," he said, according to Mrs. Phillips.

After leaving the Phillips home, he was seen by Mrs. Klingler to pass through the back lot of the latter's home, and it is believed that he immediately went to the creek, where his former wife was in the habit of fishing.

According to Mrs. Blaine, her daughter heard the sound of something falling in the room that he occupied, but at that time thought nothing of it, as he was in the habit of going and coming as he pleased. Entrance to

the room in which he lived is gained from the outside. According to immediate members of the stable family, the deceased husband was married three times. The recently-divorced wife was the third. Of the other two, one died and the other was granted a decree of divorce.

STORY OF INFELICITY.

Immediately following Rable's last marriage in 1909, trouble began. She wanted to keep boarders and he objected. He had one of their boarders, a certain Ramsey, arrested for alleged stealing, but the man was not convicted in court; so Mrs. Rable told in her testimony when the divorce case was up for trial on Saturday, July 29. This man figured throughout the case, and Rable is said to have been jealous of him at the time of the murder.

Some months ago, when the yoke became unbearable, a written contract was drawn up by their respective attorneys and they signed it. Each was to respect the other; she was to mend his clothes, do his washing and cooking and he was to live in two rooms of her home and pay her \$20 a month.

On the witness stand in court, Mrs. Rable told her ordered her boarders away and without money she could not live. Then she sought divorce.

MONEY REAL TROUBLE.

To Judge John Bailey, who heard the trial, Mrs. Rable declared the trouble arose when Adolph refused to allow her to see his pass-book on a local bank.

She talked broken English. The use of an interpreter for Adolph was necessary. Mrs. Rable checked-mated her husband's attorney, when in trying to prove she used snuff, a can was presented to her to identify the contents. She replied by saying it was her cinnamon can and she wondered what had become of it.

In telling the court how to handle him, she said: "I made a dash for him, got him across the bed and with his old gum shoes, I gave him all that was coming to him. I want you to understand (speaking to Attorney Downing) that I can take my part against any one and don't you forget it."

Because of bickering on the part of attorneys and the Rabies themselves, the journal entry, finally settling the case, was filed in common pleas court only Monday of this week.

POLICE NEGLIGENT.

G. A. Bingham, of 1028 North Jefferson street, informed a representative of the Times-Democrat of a talk he had with Rable several days ago in which the latter stated that he intended to kill his wife.

"Seeing his condition I immediately warned Mrs. Rable to be on the lookout for treachery and trouble and requested her to place him under the surveillance of the police department," said Bingham, "but she stated that no attention was paid to her previous calls by the police when the husband abused her and that it would be a waste of time to take such action."

W. P. Gilmore, a step-son of the injured woman, and other neighbors stated that police paid no attention to calls. According to Gilmore, the divorced husband watched her and seemed to be informed as to her movements. He claims that on several occasions he discovered him following her.

Five sons, one step-son and one daughter survive Adolph Rable. The sons are: Edward, William and Jake, all of Tiffin; Fred of Spencer, Ohio; and Herman of Lima. W. P. Gilmore, the step-son, resides in Lima. The daughter, Mrs. John Schaublin, lives at 450 Pearl street.

STOLEN BOBBY STRIKER SIX YEARS OLD TODAY.

BROOKLYN, Sept. 21.—Little Robert Allen Striker, kidnapped from St. Petersburg, Fla., December 12, 1914, is six years old today, if he is still alive.

His mother, Mrs. William C. Richter, who married again after the death of the father, is still actively prosecuting the search for her boy and is today in San Francisco running down a supposed clue. Her home is at No. 1445 Pacific street, Brooklyn. Five hundred dollars' reward is offered for the boy or reliable information about his fate.

According to relatives and friends interviewed today, the family think the most positive trace ever gained of "Bobby," as he was called, came from a Canadian named Delo, who was on a train bound for Fort Worth, Texas. He overheard a party of three men and a woman discussing the case and mentioning Mrs. Richter's name.

In his efforts to hear more Delo aroused the suspicions of the party and they managed to eject him from the train in Oklahoma. Delo's story would lead one to believe that the child is, or was, hidden in Texas. Mrs. Richter is now investigating the story of a California woman who read about "Bobby" in a story sent out by the International News Service and wrote the mother saying the description fitted a boy she knew exactly.

PETITION IN ERROR FILED.

Casper Volbert today filed his petition in error in court, asking for the reversal of judgment as rendered by C. P. Morris, justice of the peace. Morris found Volbert guilty of the forcible detention of land in the Zurnebly farm allotment in Shawnee township. He was charged with violating the terms of the lease.

The A. C. W. Realty Company defendant in this case, on September 6, sued for judgment against Volbert in the sum of \$150, claiming he did not live up to the terms of a contract for the lease of this land he made.

DRUGGISTS ARE FINED.

SPRINGFIELD, O., Sept. 21.—M. D. and T. J. Miranda, druggists, at New Carlisle, this county, pleaded guilty in Mayor Marion Moses' court to a charge on selling liquor without a state license and were fined \$200 and \$200, respectively. Thomas Lewis was also found guilty of the same charge after a hearing, and filed a motion for a new trial.

WILL SUBMIT TO VOTERS \$500,000 SEWER BOND ISSUE

Although the limit of bonded indebtedness which a city of Lima's size can incur in one year precludes the issuance of a \$500,000 sewer bond issue in 1916, the electorate of Lima will decide on November 7 whether or not the council shall borrow that amount early in 1917.

Intercepting sewers, storm sewers and additional mains are involved in the plan which will in all probability be followed in constructing the new system. More than \$1,000,000 will be the total cost. A sewage disposal plant will cost about \$200,000. The sewers in Lima are figured at \$300,000, the city to furnish \$170,000 thereof, while conduits connecting with a plant located southwest of Lima will approximate about \$325,000, to be paid for entirely by the city.

Mayor Simpson, Service Director A. L. Metheny and Acting City Solicitor H. Edmund Garling went to Columbus at eight o'clock this morning to confer with officials of the state board of health regarding extension of time in the ultimatum of that body demanding immediate solution of Lima's sewage problem. They will appear before the board at eight o'clock this evening to promise the earliest possible relief to Shawnee township, with a sewage disposal plant as the central feature.

October 3 will probably witness the action of the city in passing an ordinance authorizing the submission of the bond issue for \$500,000 to the voters of Lima. The board of elections must have the ordinance thirty days in order to permit the printing of ballots, the law being specific in that requirement. This would allow the election board to prepare the tickets and have room made in the tally books for the recording of the total vote per precinct in each precinct in the city.

The chief engineer of the state board of health, W. H. Ditto, has been in consultation with Service Director A. L. Metheny several times during the past few weeks, and is expected to advocate the plan to be submitted this evening by Simpson, Metheny and Garling.

Within the city limits the sewage plans will follow the plans devised by George W. Fuller, the New York drainage expert, employed by the city council last spring to make a survey. Most of the cost of this work, which will aggregate \$800,000 in cost, will be raised by special assessments allotted by sewer improvement districts. The property owners in these sections will pay in \$825,000, drawn out over a duration of ten or twenty years, the assessments to be made pro rata with regard to the size of the lots and their relation to the total benefit derived from the new drainage system.

CITY OFFICIALS ATTEND A SEWAGE HEARING AT CAPITAL

Mayor Simpson, Service Director Metheny and Acting City Solicitor Garling went to Columbus this morning, where they will attend the hearing of the state board of health in regard to the construction of the proposed sewage disposal plant.

The state board of health warned city officials not to construct any more sewers to the creek until arrangements had been made in regard to the disposal of the sewage that is already carried off in the channel of the river.

However, in order to relieve the flooded condition that occurs in certain sections of the city following a heavy rain, it is expedient that some arrangement of intercepting sewers be made to relieve this situation. This matter will be placed before the board of health today, with the understanding that the sewage disposal plant be constructed within a short time.

VILLISTAS RETREAT.

EL PASO, Texas, Sept. 21.—Villistas who attacked Palo Blanco, a suburb of Chihuahua City, yesterday, have retreated into the hills west of the city, according to official dispatches received from the capital today by General Gonzales at Juarez.

The retreating bandits are being hotly pursued by Carranzista troops.

HEROISM COSTS LIFE.

CAMBRIDGE SPRINGS, Pa., Sept. 21.—Heroinism cost the life of one man, a man and a woman were probably fatally injured and four others were hurt when an automobile carrying a party of Crawford county residents to the Erie exposition, was struck by a fast freight train on the Erie railroad at the Venango street crossing here this morning.

The Y. M. C. A. As a Helper of young Men

(By Rev. M. B. Fuller.)

Do we not need a fresh appraisal of the value of a man? There are tendencies that cause the "individual" to wither more and more. In the thought world everything seems to be drawn down to a common center, materialism or socialism; in the world of industry more is made of machinery than the men who make the machinery hum; in the world of commerce, the larger corporations swallow the smaller, while the man is lost sight of; in the world of politics, majorities are enthroned, while minorities are scantily respected; in the world of population millions are aggregated in our cities, while country districts are depleted; while even in ecclesiastical terminology we balk grandly about reaching the "masses" while we neglect the men who wake them up. Our study of astronomy makes man a "pin point in the universe," comparative physiology as we compare a chimpanzee with a Titan of Pagan makes us blush for some human beings; while study of history in the last two years leads us to think that death itself is only an incident in the process of decomposition, recombination and composition.

We need a new valuation. The history of this nation is the history of a few men. Bonaparte declared that it was not the Carthaginians that harassed Rome, but Hannibal—not the Romans that conquered the world, but Caesar; not the Macedonians who were world victors, but Alexander; not the French who were mighty warriors, but General Turenne; not the Prussians who held

back their enemies, but Frederick the Great. "Behold the mightiest glory Worlds on worlds. Ten thousand add. Add twice ten thousand more. Then weigh the whole—One life outweighs them all And calls the unintelligent mass of creation poor."

But a man to have the highest value must be trained. Not one in 500 of our young men avail themselves of a college education. The Y. M. C. A. gives help where most needed. Its gymnasium promotes physical strength. The night classes fit for special lines of endeavor. The fellowship with other young men contributes to the social life. The Christian emphasis develops complete manhood. Young men are worth saving. Washington at 21 was the rising hope of Virginia. Henry Clay was speaker of the house at 34; Douglas was candidate for the presidency at 29; Hamilton discovered the law of gravitation at 25; Pitt was prime minister at 25; Napoleon was a general at 27; Byron, Burns, Mozart, Raphael died before they were 40. Young men won the battle of Marathon, saved Paris in the revolution, made freedom possible to the American Colonies and helped free the slaves. Of the 2,500,000 men called to arms in the Civil war, one-eighth were in the 19th year; three-tenths in the 21st year; one-half under 24 years, and three-fourths under 30 years.

Young men, join the Y. M. C. A. and unite with the churches! Your peril is deep as hell. Your possibilities are high as heaven.

'TANKS' FOR BRITISH USE AT WAR FRONT PASS THROUGH LIMA

A train load of "tanks" consigned to the British government passed through this city several days ago on the L. & W. railroad. These machines which are being successfully used by the allies on the war front were all manufactured by the Holt Manufacturing company of Peoria, Illinois.

Although the first order received by Great Britain of the 1,000 contracted for were placed in service pulling the heavy guns over battlefields, the later ones are being armed with machine guns and armor plate. They are found to be very serviceable in the latter work as they are supplied with caterpillar tracks which allow them to travel over the most difficult ground.

CHILD'S FUNERAL.

Funeral services for Glen Lloyd Yoakam, two-year-old son of Mr. and Mrs. Cloyd Yoakam of 518 North Charles street, will be held Friday morning at 10 o'clock at Shawnee church. The Rev. Cecil Franklin of South Side Church of Christ will officiate. Interment will be at Shawnee cemetery. The child had been ill a week from appendicitis.

Mrs. Charles and W. L. Anepach will entertain the Fisher Aid society Thursday all day.

CHARDON—When Lewis Huckerberry returned to his farm here from Chester last night he could not find Frank Jackson, fifty, who lived with him. He organized a searching party of neighbors and at midnight they found Jackson's body in the woods. He had evidently committed suicide with a shotgun which he had borrowed from Albert Wendt early in the day, ostensibly to hunt squirrels. Jackson had lived many years in the country and was known to be despondent over domestic troubles. He was separated from his wife.

LISBON—The ban on children under 16 years of age attending theatres, Sunday schools and public playgrounds, which has been in effect in this county since September 9 because of an infantile paralysis scare, will be lifted Saturday. Schools will be re-opened according to schedule on Monday.

THE IDLER

Miss Harriet M. Howey, daughter of the Rev. M. C. Howey and Mrs. Howey of East Elm street, who will soon leave for Japan as a foreign missionary worker, will be given a donation, following the meeting of the Woman's Foreign Missionary society of the Delphos church on next Tuesday afternoon. A thimble social will be held in the church parlors to provide ways and means. Miss Howey will likely be a guest at the social and deliver a talk.

Lima friends of Richard Kettell, son of Mr. and Mrs. E. E. Kettell of Delphos, will be interested in knowing he has gone to the extreme part of northern Canada with prospectors, in search of gold fields. They will locate in the Boston Creek mining district. Mrs. Kettell will remain at the home of relatives in Toledo.

Camps of Woodmen of the World of Lima, Celina, St. Marys, Botkins, New Bremen and Wapakoneta will hold a basket picnic at the Angliaze county fair grounds on next Sunday. A ball game and horse-shoe pitching contest will feature.

Ferd. Shaffer of Wapakoneta, who has been at the City hospital for a couple of weeks, where he was subjected to an operation for the removal of a silver of a broken bone in the left arm, as well as to remove a silver wire which held the parts together until they knitted, is able to be removed to his home. The accident occurred a year ago, since which the wire has been in the arm.

According to police, P. D. Davis, 432 Holland block, who had \$18 taken from his office yesterday, suspects who did the work. It is said that the money was taken from a desk, and that a skeleton key was used to gain entrance to the office.

WHITMAN-SEABURY LEAD IN NEW YORK

NEW YORK, Sept. 21.—Charles S. Whitman and Samuel Seabury will be the republican and democratic candidates, respectively for the governorship of New York at the November election. Latest returns from Tuesday's primaries show that Governor Whitman decisively defeated William M. Bennett for the republican nomination. Seabury was unopposed.

The race for the republican senatorial nomination was still in doubt early today. With 1,595 districts still to be heard from William M. Calder was leading Robert Bacon, the choice of Theodore Roosevelt, by nearly 1,300. Calder claimed that he would win by more than 5,000.

William F. McCombs, former chairman of the democratic national committee, was nominated for United States senator by the democrats. He easily defeated Thomas F. Conaway. State Comptroller Travis was renominated by the republicans.

Deep interest was attached to the vote of the progressives at the primaries. The available returns indicated that Whitman had slightly the better of Seabury in their contest for the Bull Moose support.

HARROD R. D. NO. 3

J. R. Harrod and family moved to Ada last week.

J. L. Schofield and family entertained Sunday Mr. and Mrs. E. R. Cook of Westminster, Mr. and Mrs. Sam Logan and William Logan and family of Perry township.

On Sunday evening, Sept. 10, several of the members of the Angliaze Sunday school met at the home of J. R. Harrod and spent the evening with them. Those present were Mr. and Mrs. C. A. FINDLAY—In a rural territory that extends two miles one way and four miles another way from Benton Ridge there live 53 families. Of this number 39 own their own cars. Corn and hogs have done it.

The entertainment committee of the Child Welfare association has arranged to stage the famous musical fantasy "The Wishing Ring" in the opera house on the evenings of October 12 and 13.

The performance will be given under the direction of the John B. Rogers Producing Company, of Ohio, who make a specialty of rehearsing and staging high class amateur productions.

Rehearsals will begin shortly. The production has been given throughout the east with marked success. It is built along the lines of Maeterlinck's "Bluebird" in that the two leading juvenile characters, like Tytlyle and Metyl, fall into slumber and go wandering through "Story-book Land" in search of happiness. The principals will be drawn from the leading musical and dramatic talent of the city. More than 250 will participate in the choruses and interpretive dances. Mrs. C. S. Baxter is chairman of the committee in charge.

Books taken from the public library and school books taken into houses where there are cases of contagious diseases or typhoid fever are to be fumigated by the health board before being returned to the library or school room.

Miss Luzilla Beery, daughter of Mr. and Mrs. John Beery of Pandora, will enter Lima hospital the first of October, to take training for a graduate nurse. She is a relative of Dr. William H. Beery of the Opera House block.

The quarterly meeting of the Allen County Press association will be held on next Monday evening in Bluffton. About 20 members of the association, the majority from Lima, will attend.

FIREMAN SUSPENDED.

The evidence in the case of Alonzo Meeks, city fireman, was heard by the civil service commission this afternoon at 1 o'clock. Two of the decisions rendered by Safety Director Rohn were reversed by the commission. He was suspended for 30 days. The time of suspension started September 5th, and will be allowed to resume his work on October 5th.

MRS. ALLIGRE'S FATHER DIES. Mrs. Blanche Alligre, wife of John H. Alligre of 339 Atlantic avenue, has received word of the death of her father, William Nicholson, well-known farmer, residing six miles northwest of 'Piqua on the Versailles pike. He was sitting on a wagon at a near-by farm house after having worked during the day, filling a silo.

He recently suffered a severe attack of heart trouble, but recovered. This caused his death. Funeral services were held this afternoon at the family home and interment was at Forest Hill cemetery.

GRAND JURY WILL REPORT TOMORROW

"As far as I know, the grand jury will be ready to file its report and make known the list of indictments, Friday morning," said Prosecuting Attorney O. O. Barr this forenoon, to The Times-Democrat. The work of taking evidence and hearing testimony is at an end.

In the meantime Prosecutor Barr and his stenographer are deep in the midst of papers, working like trojans to complete the last details of the work, preparatory to filing the report. Prosecutor Barr is ably assisted by Harry O'Connor. The jury is inspecting state and Allen county institutions.

The session has been a busy one, lasting since Tuesday, September 5. Three hundred and nineteen witnesses have been subpoenaed and aside from the riot cases, nearly half a hundred of different cases have been looked into.

Prosecutor Barr's term of office will go down into history as fraught with unusual investigations and the results returned will be a credit to Prosecuting Attorney Barr.

Could Not Do Her Cooking. Mrs. F. E. Hartmeister, Tea, Mo., writes: "I was affected with kidney trouble for two years. I got so bad this summer I could hardly do my cooking. I got Foley Kidney Pills and I feel like a new person." Too many women neglect symptoms of kidney derangement, weak back, swollen ankles and joints, aches, pains and rheumatism. H. F. MORE SENSATIONS DUE IN PROBE OF BLACKMAIL GANG

WASHINGTON, Sept. 21.—Following the series of conferences begun last night and continued today between the chiefs of the department of justice and its field agents, it was stated today that many more arrests and additional sensational disclosures in the Mann white slave law blackmailing conspiracy shortly can be looked for.

The investigation and search for the "brains behind the band" was today ordered extended to many of the principal cities of the country. Officials confidently declared that the men and women who now are known to have planned the campaign which cleared up nearly a million dollars in ten months shortly will be caught unless they already have fled the country. And, in view of the great difficulty in obtaining passport officials say this is almost impossible.

Plans for a nation-wide campaign against the known conspirators and others as yet not suspected of having the Mann law for blackmailing purposes were completed today. As a result from now on all inquiries will be directed from the office of Chief Investigator Bielaski in this city and every agent of the department report directly to him.

At today's conference participated in by A. Bruce Bielaski, chief of the bureau of investigation; John C. Knox, special assistant attorney general, who has been placed in direct charge of all prosecutions; Hinton G. Clabaugh of Chicago, and several other special agents, it was decided that the initial prosecution shall be moved in the federal court in New York next month unless in the meanwhile a stronger case can be

WEST CAIRO

A social of more than passing interest to the community was held at the Christian parsonage on last Friday evening in honor of the Rev. and Mrs. L. D. Wert, who have been in the parsonage for the past six years and have won many friends while here. Last Sunday closed his services as pastor to the people here. At the close of the evening's service, one applicant for church membership came forward making a total of 100 members that have come into the church during his stay.

The organized class of young people held their regular meeting on Friday evening with the pastor, and a general invitation was given. More than 200 were present and many of the other denominations were in attendance. Some pretty and useful gifts were given and a purse of money was presented to the pastor; and

No More Running Sores

Minor M. Keltner Sells An Ointment Called San Cura That is a Positive Relief.

It matters not how old, persistent or painful the sore is, San Cura Ointment the powerful antiseptic, will draw out the poison and promptly heal the sore.

So sure of this are the owners, The Thompson Medical Co., that they have authorized Minor M. Keltner to return the purchase price if San Cura Ointment doesn't do all this paper says it will do. No fairer offer was ever made.

B. D. Dutton, Titusville, Pa., says: "My arm was covered with twenty-four running sores and swollen to twice its natural size. San Cura Ointment relieved the pain, drew out the poison and healed the arm in an incredibly short time. It is the greatest compound for healing I ever used."

The healing powers of San Cura Ointment are little short of marvelous. It gives relief, and is guaranteed to help salt rheum, eczema, bleeding, itching or protruding piles, ulcers, boils, carbuncles, chapped hands and chilblains. In cuts, burns, scalds and bruises, it always cures and is healing. 25c and 50c a jar. By mail on receipt of price, if your druggist is out of it or does not keep it.

SAN CURA SOAP.
For tender, itching or irritated skin, wash with San-Cura Soap, the antiseptic soap that soothes and heals, and kills germs of disease. Great for pimples, blackheads, and makes the complexion clear and attractive. 25c at Minor M. Keltner's.

LIMA PUPILS WILL EXHIBIT WORK AT THE COUNTY FAIR

Lima public schools and those of the county will endeavor this year to capture some of the liberal prizes offered in the educational department of the Allen county fair. For educational exhibits in every department and grade this year, if shown in the proper classification at the fair, good prizes may be secured. Competition is also opened to the parochial schools of the county.

The display of the High school art department will be shown under the fine arts exhibit at the fair, of which George L. Breese is superintendent. He is also superintendent of the educational display and will arrange for the space allotted to the schools for their work. The domestic science department and the manual training products will be shown, there being special arrangements made for this exhibit.

The educational building will be one of the most interesting at the fair, if the questions already asked by teachers, superintendents and principals, of the directors and superintendents of the big fair, is a criterion by which to judge.

FIRST DAY Y.M.C.A. CONTEST LIVELY ONE

The first day's result of the Y. M. C. A. auto membership campaign, as reported at the supper last evening, shows some of the machines running in fine shape and some having considerable trouble. The Maxwell went so far ahead after new members that it failed to show up at the starting point last evening. The captain, Arthur Wells, stated that he was working diligently and of course he was excused for his absence. He expects to have a splendid report tonight.

Division B carried off the honor with 29 members for the first day, and Division A reported 14. Some of the captains got a little enthusiastic in their reports and there may be some readjustment to be made. Considerable merriment resulted at the meeting last evening by the reports of the various teams. The Ford team, captained by Walter Bowsher, reported having interviewed 21 men during the day and 15 of them promised to become members by Saturday night, but according to the rules of the contest, promises do not count. No member is counted unless his application is brought in by the team securing it with at least a portion of the fee paid. A number of other teams likewise reported quite a number of men interviewed with the promise of many recruits before the campaign closes.

The standing as reported last evening is as follows: Paige, Cheney, 12; Packard, Michael, 9; Ford Bowsher, 0; Overland, Marshall, 8; Gramm-Bernstein, Botkin, 8; Chalmers, Verbyrke, 9; Cadillac, Stewart, 2; Gardford, Chenoweth, 3; Maxwell, Wells, 0; Buick, Mackenzie, 1.

A very high school girls acted as waitresses and will do so again this evening. Their services were roundly appreciated by the men present.

Rev. Franklin A. Stiles was present and gave a short address in which

HUNTERS MUST PASS RIGID EXAMINATION

"I have made out so many of these hunters' licenses, I pretty nearly can tell their height, age and sometimes occupation at a glance," said Miss Ella Mackenzie, the obliging deputy in the office of D. A. Bowsher, clerk of courts, who issues many of the licenses which permit hunters to enjoy a day of sport in the woods.

The applicant for a license must answer to his age, occupation, place of residence, height, color of hair and eyes and then leave a dollar with the clerk to get the privilege of hunting until the close of the year. Although the season is somewhat advanced, every day sees throngs of hunters in the office for licenses. They agree to subscribe to all the laws of the state regarding the sport and go away with the little piece of green paper, the next time to fight it out with the man who owns the land on which they want to hunt, or escape the dog he sends after them.

WILSON WILL SPEAK TWICE IN NEW YORK

SHADOW LAWN, LONGBRANCH, N. J., Sept. 21.—Out of friendship for William F. McCombs, his campaign manager in 1912 and Judge Samuel Seabury, President Wilson has about definitely decided to make at least two speeches in New York during the campaign. One of these speeches probably will be made in New York City and the other at some point up-state, yet to be selected.

The president has made it plain to his advisers that his trip to New York state will not be in the nature of a stumping tour. He is as determined as ever that he will not "take the stump." He holds to the

belief that it is below the dignity of the office for the president to make stump speeches in the interest of his candidacy for re-election.

The president had no appointments for political conferences today. Since coming to Shadow Lawn he has discussed politics only with Chairman Vance McCormick, Secretary McAdoo and Postmaster General Burleson. It was said today, however, that the next two weeks will see more activity along this line.

RUSSELL'S RECORD

The record of Congressman J. E. Russell, of Sidney, obtained by The Times-Democrat yesterday after several months of effort, contains one little revelation worthy of consideration by all voters in the Fourth congressional district.

Russell voted in favor of removing the clause of the special emergency tax, passed October 22, 1914, to meet the customs revenue deficit caused by the European war, which taxed the capital stock of national banks. He also voted against extending the postal savings bank law so that depositions could place unlimited sums at the safe keeping of Uncle Sam.

Russell is a director of the First National Exchange Bank, of Sidney. It is evident that the extension of the postal savings bank system by removing the limit of deposits would have hurt all banking institutions to a slight degree, and also that the slight tax on bank capital can be felt in the dividends. Only slightly, however, can these factors be noted.

When a judge on the bench encounters a case involving matters in which he is interested he changes jurisdictions long enough to permit another court to hear the case. In such a time as this a legislator has a semi-judicial function and common propriety would demand that a congressman interested in a bank would refrain from voting money into his own pocket.

Election day is November 7, 1916. At that time Russell will be opposed by a candidate who record as prosecutor involved stern pursuit of banking institutions collecting illegal interest from public funds. Those who believe that a congressman should vote for himself should support Russell. Those who believe that a congressman should vote for the government should support B. F. Welch.

"DRUMMERS"

A local traveling tana, one who covers several states and "makes" hundreds of tours for a big house in a mid-western city, declares that

he has always been a Republican, but that he is going to vote for the re-election of Woodrow Wilson. He says that the action of the president in averting a railroad strike saved the country from a food shortage and a coal shortage, prevented a business depression, saved the manufacturers millions of dollars, prevented millions of men from losing work and wages and saved the job of every traveling man in the country who covers more than a narrow territory.

"Take the Ford plant alone," he cited. "When the strike came to the point of imminence Henry Ford wired Mr. Wilson that such a calamity would throw out of work his 49,000 employees. The same thing applies to all factories of the same national field of production. There are scores of other reasons for voting for a second term of Woodrow Wilson, but those of us who travel with sample cases realize more than the rest of you the significance of the work of the president in stopping the strike."

The knights of the grip go everywhere. For business reasons they are generally non-committal, but if pressed they will talk freely to their patrons in every little crossroads town in the nation. On the trains, in hotels, at the table, they are ready conversationalists, for their life away from home makes them affable with strangers. Therefore the traveling men have more influence politically than any other class. And when they are unanimous in spreading this doctrine or that, the effect will be enormous.

This fall they will all be preaching Wilson, for they are grateful to him for saving their jobs. With a strike on hands they could not cover their territories. But with the strike off they are going everywhere, meeting millions of voters, pushing the Wilson sentiment into every city on the map. Watch their smoke.

July building permits compiled by Bradstreet's show 63.5 per cent increase; which puts two more questions up to Mr. Hughes—first, are these buildings "blood-soaked" and due to war; and second, in what way is permanent building improvement an evidence of "temporary" prosperity?

The United States has become a creditor nation under Democratic administration up to date to the amount of \$1,600,000,000, and is taking on a hundred million or so more each month. The Republican administration left the country a debtor nation to the tune of \$6,000,000,000.

All that disconcerted Republican new-papers and party leaders can say is, "Just wait, you'll find out in good time what his issues will be and what he would have done. The wait from July 31 to the present time has not given the country much enlightenment on the subject."

"Hughes at his best in Utah"—says the headline of an organ. Since the election of 1912, Utah and one other state appear to be the only safe refuge for a presidential standard bearer of the Old Guard.

The Arctic expedition headed by Borden and Lane was wrecked in Bering Sea only a few days before the polar expedition headed by Hughes and Fairbanks fell foul of breakers in San Francisco.

The Democratic ticket in Maine pulled 17,000 more votes than Wilson pulled when he carried Maine in 1912!

For ways and means of avoiding strikes, wars, etc., after they are prevented, consult Charles E. Hughes.

PEACE.

I call you to witness, my fellow-countrymen, that I have spent every thought and energy that has been vouchsafed me in order to keep this country out of war. It cannot be disclosed now, perhaps it never can be disclosed, how anxious and how difficult the task has been, but my heart has been in it. I have not grudgingly a single burden that has been thrown upon me with that end in view, for I know that not only my own heart, but the heart of all America was in the cause of peace.—At Des Moines, Iowa, February 1, 1916.

PERSONALITIES.

Some gentlemen seem to find it easy to make personalities out of politics, but it seems to me that when that is done politics are debased.—To Orange, N. J., Democrat, Sea Girt, August 10, 1912.

SHIRAZ.

Shiraz is a very human town. For more centuries than are worth the trouble of counting, it has enjoyed a reputation through the near east as a seat of knowledge and letters. Native speak of their town as the "abode of wisdom." And they are very conscious of their reputation, and as proud as a kitten with a blue ribbon around its neck. The average Shirazi is likely to be a bit uppish and condescending to common humanity, but his attitude is nice and understandable, and quite the thing for a man who lives in a town like Shiraz. If there weren't just a trace of the brouhaha about such a simile, you might call Shiraz the Persian Boston and not be far off.

Moreover, Shiraz is beautiful. There is no sight in all the east to excel the old city as she lies in the green of the trees and the purple of the mountains, the bulbous domes of her mosques giving the distant bulk of her a quaint, floating quality, as though the walls and houses were hovering just above the earth. One may set down adjectives of form and color backed by all the superlative modifiers, but a block of cold type can not do more than list things statistically-wise. There is a gate near Shiraz though called the "Great is Allah" gate because that is what travelers always say when they stand there and look at the city; and that little phrase is not a bad description of Shiraz in the distance.

Like everything from a buffalo nickel to a campaign argument, however, this tale of the glories of Shiraz has its other side. You can not camp in the country and admire indefinitely; and Shiraz at hand-grips shows herself in a state of some municipal disrepair. There is a noble

You have been told that it is second in strength in the world. I am sorry to say that experts do not agree with those who tell you that. Reckoning by its actual strength, I believe it to be one of the most efficient navies in the world, but in its strength fourth, not second. And you must reckon with the fact that it is necessary that everything should be done that is possible for us to do to bring the navy up to an adequate standard of strength and efficiency.—At Cleveland, January 29, 1916.

old bridge leading into the heart of the town which the county commissioners ought to look to, and a statue of Darius the Great stands clipped and awry like an empty bottle on an ash heap. The weather is exceedingly hot for half the year, and fevers are prone to carry off native and visitor with great suddenness. For all that, the visitor likes Shiraz. He lists the unpleasant details in no spirit of malicious fault-finding, but in the hope that the board of aldermen will sit up and take notice.

FOOD NEEDS MUCH CARE IN THE HOME.

Food never should be kept in paper sacks or packages, but, when received, should be put away in tightly closed jars, well labeled.

Packages that may be opened without damage, so that they may be closed again, such as crackers, may have the food left in the container, but care should be taken each time to fold the oil paper and close the box properly.

Dried fruits should be scalded, washed thoroughly, dried, and put away clean.

Nuts, if bought shelled, should be scalded, dried, and put away in glass jars, ready for use.

Vegetables of the tuber class should be kept in a dark place. Keep Vegetables Cool.

Green vegetables either should be put into water or washed, laid in cloths or folds of paper, and kept on ice or in a cool place.

Bread never should be wrapped in cloths, but kept in tin boxes or stone jars, which should be scalded out every week, aired, and dried thoroughly.

Cake, doughnuts, cookies and so on, also should be kept in tin boxes or stone jars.

Meat, when received from the butcher, should be removed from the paper immediately, put on a plate, and set near the ice or in a cool place. Before using, it should be wiped with a damp cloth.

For the Milk and Eggs.
Eggs, when received, should be washed and kept in a cool place. If desired, very cold, and no ice is at hand, let them stand in cold water.

Butter should be kept in a covered jar in a cool place. If set in the refrigerator, it should be placed with the milk, or on a bottom shelf, so that any odors that might arise from the other foods will be less likely to permeate them.

Milk, when received, unless in bottles, should be put in a well-scalded, cooled pans. If in bottles, wash carefully, especially the mouth and top.

The Searchlight

ELECTRIC TRAP FOR MOTHS.

California farmers have discovered that cut-worms, which so ravage their beets and other vegetables, are hatched from eggs laid by a moth which flies at night and like all moths is attracted by light. A special trap has been devised for its eradication. The trap includes an electric light supported on a platform. Beneath the light is a pan of oil into which the moth falls after dashing up against the light. As many as 7,000 of these moths have been caught in such a trap in a single night. Most of them were eggs carrying females, so their destruction materially checks the increases of the cut-worm.

Rheumatism Follows Exposure.

In the rain all day is generally followed by painful twinges of rheumatism or neuralgia. Sloan's Liniment will give you quick relief and prevent the twinges from becoming torture. It quickly penetrates without rubbing and soothes the sore and aching joints. For sore, stiff, exhausted muscles that ache and throb from overwork, Sloan's Liniment affords quick relief. A Birthday Surprise
for Mr. Benton

Nothing could have been more of a surprise. Mrs. Benton had invited a few of Mr. Benton's friends, and after having a convenient little chafing dish lunch, they all sat around to talk.

"You certainly have a nice home here," one of Mr. Benton's friends said.

"Yes, you're right—and we're proud of it, too. If you had come here three months ago, you wouldn't have seen things quite so nice. You see, Mrs. Benton has so much more time to fix things up since we've had our house wired for Electric Service. She doesn't have to wear herself out with the drudgery of the housework any more. We've found a better way—the electrical way."

As the "bunch" arose to leave, Mrs. Benton snapped on the porch light and escorted them down the walk.

"Good night, people."

"Good night, everybody; come back again."

This completes our little "movie." Mr. and Mrs. Benton bid you good-bye and trust that YOUR home is electrical, too.

WORK

Of Scores of Persons
IS INVOLVED IN KEEPING THE
'PHONE AT YOUR SERVICE.

When you go to the telephone to order groceries or make an engagement or sell a bill of goods or inquire about the time of trains or talk with a friend, does it ever occur to you what is involved in the service which keeps the system always ready to be of use?

Do you realize that storms may ruin the mechanism of every exchange in a great part of a state? Electrical interference from the skies has more than once caused thousands of dollars in loss to telephone companies.

Do you realize that sleet and snow may break down miles and miles of wire? Winter often makes deep cuts into the resources of a company and adds hundreds to the incidental expense account.

Do you realize that accidents of a dozen various kinds may come at any time, forcing workmen to repair lines at all times of the day or night? Countless influences work havoc to such an extent that constant watch must be kept on every part of a great telephone system.

A small army of employees keeps up the service of the Lima system. Occasional damage by storm or lightning is repaired at once. Wires are re-strung and poles reset whenever Nature demands. There are in the employ of the local company 45 persons in the plant, 79 in the traffic department and 11 in commercial lines, a total of 135 employees.

These men and women are constantly on the lookout for ways in which to make the service better. When you use the telephone again, remember that they are all working for YOU as much as for the company. They are well cared for and have never presented grievances. They are a loyal, faithful, valuable organization.

Would they be as interested, as loyal, as faithful, as well cared for, under municipal ownership?

Lima Lucky
on GasA Big Supply This
Winter!

After going over the entire field, following the bringing in this summer of 25 new wells, Lima and this territory will have a plentiful supply of Natural Gas for the entire winter. Not until assured of this fact would the Lima Natural Gas company make the following announcement:

Note This Special Offer!

For many years past, it has been the custom of this company, each Fall, to offer its present and prospective patrons some special concession, in the cost of connecting premises or equipping appliances, which would permit them to arrange to enjoy the luxury of natural gas, at a substantial saving. The popular acceptance of our previous offers is evidenced in the hundreds of happy homes where this matchless fuel has supplanted coal and is now used with cleanliness, comfort and satisfaction.

This year it is our pleasure to announce that beginning September 1st, and ending October 1st, 1916, we offer for your acceptance the following proposal, to-wit:

For Domestic Heating
and Cooking

Gas burners will be installed in coal-fired hot air furnaces, steam and hot water boilers, coal heating stoves, coal cooking stoves and grates, AT THE COST OF MATERIAL WITH NO CHARGE FOR LABOR.

Easy Terms if Desired

All installations will be made in the order of their receipt, first come first served; and as our fitters will naturally be very busy, it therefore behooves you to place your order WITHOUT DELAY, as October 1st is the final date.

ASKING

THERE are certain persons in
the world whom I call
"askers" and they are as
well known to you as they are
to me.These persons, or "askers" are
ones who are always asking a favor
from you, a little convenience for
themselves at your expense, and
then always forgetting that they owe
you something.For instance I know a woman,
who is charming, who is also eco-
nomical and practical, but who has a
failing for accepting other persons'
hospitality and grumbling when she
has to return it. Moreover she is an
invertebrate critic of other's mo-
tives. Unconsciously she points out
this fault of this person or that fault
of that person, without ever consid-
ering the reflection upon herself. You
may think it odd that a woman
could be charming and yet have these
faults, but it is true. Favors she
will ask of anyone, but when it
comes to returning them, she criti-
cizes her benefactor as a parasite.There is nothing so little as a per-
son of that sort. Hospitality is of
the heart, not the ladder or the
pocket book. Willingness to do for
your friend whether she has done
any thing for you, is more valuable
to your friend than a present of ten
gold would be. A desire to help
some one, not only repays her, but
it makes your own self feel better.
It's the best tonic in the world.There is no excuse for thought-
lessness, especially in the courteous
desires of the heart. The person
without the sympathy for humanity
is a very poor person indeed. No
matter how much of the world's
goods they may have, how intellec-
tual, without the real sympathy and
understanding of the human side of
life, there is the rabblest of exist-
ences. They are the ones who for-
get, who are thoughtless, and self-
ish. The selfish person thinks only
about herself, the selfish person is
the one who lacks understanding
and sympathy, and the one who
lacks both is the one who asks, re-
ceives, but does not give, unless
grudgingly. These are the "askers".

"Mulberry" Shade Less Popular.
"At last the decorative craze for
the combination of mulberry and old
rose is waning," said a clerk in the
interior decoration department of a
large store. "For the last year or
more, there has been such a demand
for mulberry that it has seemed to
us that every living room in the
country must be hung in mulberry
velours! It is, to be sure, a beau-
tiful color, soft and charming with
the right walls and furniture, but it
has served to show the sheep-like
quality of popular taste. Few per-
sons should use this color to express
their individuality. It belongs to a
certain definite type of person and,
if chosen only by the occasional
homemaker, it might prove effective.
It had gotten to the point, however,
whenever a woman came in and asked
to see mulberry velours, every
clerk in the place grinned. When
people learn not to consider the
latest fad but their own innate taste,
and try to develop that in order to
express themselves most sincerely,
we shall not only have more attrac-
tive interiors but more varied ones.
Mulberry is passing, at last, and we
hope that no other color fad will
come to take its place."**Tomatoes With Savory Custard.**
Mix together 1 pint of canned to-
matoes, 1-4 cup of bread crumbs, 1tablespoon of finely chopped onion,
1 teaspoon of sugar, and salt and
pepper to taste. Pour into a buttered
baking dish. Beat 4 eggs, adding
1-2 teaspoon of salt, 1 teaspoon of
sugar and 1-2 cups of milk. Pour
over the tomato mixture, set in a pan
of water, and bake in a slow oven
until set, about three quarters of an
hour.

Biscuit Glaze.

Beat together until very light 4
eggs, yolks only, and 1-2 glass of
pulverized sugar. Whip 1 pint of
cream stiff and dry, add vanilla to
taste; add the eggs to cream and
fold in lightly. Put in a brick or
melon mould, the edges greased with
lard, and bury in salt for 4 hours
or more.

Rusk.

Sift 2 quarts of flour into a pint
of milk, add 2 spoons of yeast and
let the mixture rise overnight. In
the morning add a little salt, two
large spoons of sugar, three of but-
ter, and two well-beaten eggs. Grate
into the dough 1-2 of a nutmeg. Add
enough flour to make the consistency
of bread dough. Set it to rise. When
they have risen well, mold into cakes
the size of an egg, put in pans and
set to rise again. When they have
well risen, beat the white of an egg
with some salt, and put on top of
the rolls. Bake 20 minutes.

"THE GARDEN OF ALLAH"

In this day of so many "second"
companies, touring the country, it
will be a welcome relief for theatre-
goers of this city to learn that the
magnificent production of "The
Garden of Allah," which will come
to the Faurot on Saturday afternoon
and night, is the only and original
organization before the public to-
day and will be presented in its en-
tirety just as it was seen at the Cen-
tury theatre, New York City, for a
solid year.There are many notable things
about "The Garden of Allah" as aplay, but the one that stands out
most vividly and will be longest re-
membered is the magnitude of the
scale on which it is staged, every
scene being notable, either for its
beauty or its novelty.It faithfully reproduces the story
by Robert Hichens as in his book
and was dramatized by himself, as-
sisted by Mary Anderson de Navarro.
It is full of action from start to
finish, flying from climax to climax,
yet it carries that impression of vast
solitude and the spell of the desert,
that are so prominent in the book,
and the very characters seem things
apart from real life.The three important roles—
"Boris," the young monk, "Dom-
ini" whom he marries, and "Cunt
Antoni," the desert dreamer and
good friend to both, are in the hands
of Mr. William Jeffrey, Miss Sarah
Truax and Howard Gould, respec-
tively; and are portrayed so force-
fully that one will imagine all three
walking directly out of the novel it-
self.Others in the company of over
one hundred include Mr. Albert An-
druss, Mr. Thaddeus Gray, Mr.
James Mason, Mr. Leo de Valery,
Miss Pearl Gray and the Abbott
family of five, together with a host
of Arabs, Moors, Armenians, French
and native soldiers, and many
camels, horses, donkeys, goats,
pigeons, etc., that all lend a finish-
ing touch to this stupendous tri-
umph of the stage of today.

Dodgers and Red Sox Picked to Play In Series

By Frank G. Menke. The Stallings outfit trails the Dodgers in the races from today's angle, it by two full games, a dual lead that looks more and more as if they seem almost impossible to overcome. The series battlers will be the one at such a late date in the fighting.

Base ball is a slightly uncertain. The lead of the Red Sox, like that proposition; kaleidoscopic changes of the Dodgers, is not imposing can take place in a day or two. But and they have two clubs close on harrising new form reversals, their heels. But the big factors in chances are that the Brooklyn and favor of the red-hosed folks is that the world champions of 1915 will they are playing rejuvenated base breeze in ahead.

The leads of both today are none. Their batters seemed to have too healthy; a day or two could covered their batting orbs and the send them tumbling back into sec-pitchers have been displaying undependable; a week might drop them crackable pitching. A lead of only into third and altogether out of the game or two is not much order. Both clubs are playing top-narily, but it's an awful lot when the notch ball in every department and leading club owns such pitchers as only a head slump will enable their Ruth, Shore, Foster, Leonard and closest rivals to top them.

The Phillies are the dangerous pitching staffs that have cracked in rivals of the flying leaders of their dozen different places throughout Tener league. They have played the season. Wobbly pitching has consistent base ball all year; except the Tigers and the White Sox hit batsmen in huge quantities, out of the lead nearly all year. The And, in the final struggle through same sort of hurling in these crucial the stretch they have Alexander and days will kill their remaining Rixey to work every other day if chances for the pennant.

The Braves continue to play ex-right now, it looks as if both have ratio base ball—the kind that never the rail position in the final drive for a pennant. Their chance to which is a wonderful advantage win now has skidded to the remote with the end of the struggle so near.

First Win Boehling Annexes

CLEVELAND, Sept. 21.—Morgan's errors allowed Cleveland to score two of its runs and defeat Washington 3 to 2, Boehling thus winning his first game for Cleveland. Smith, former Cleveland player, led in batting with three hits in three times up. A throw by Graney to the plate, doubling Smith in the eighth inning, prevented Washington from tying the score.

Red Sox Win From Detroit

DETROIT, Sept. 21.—Detroit's 4 to 3 defeat at the hands of Boston yesterday afternoon in the second game of the series helped the eastern team materially in its race for the place.

Henriksen, batting for Carrigan in the eighth, sent home the winning run when the score was 3 to 3, his single scoring Scott who had walked and stolen second after two were out.

Wild throwing by Leonard and Hoblitzel and hits by Crawford and Heilmann enabled Detroit to score three in the second. Boston tied it in the fourth with four hits. Shorten singled and Lewis doubled. Shorten scored on Gardner's sacrifice fly. Lewis taking third. He scored on Scott's single and Scott came home on a hit by Carrigan.

Philadelphia-Chicago.
CHICAGO, Sept. 21.—Chicago went into second place yesterday by defeating Philadelphia 5 to 7 while Boston won from Detroit. Chicago is one and one-half games behind the leaders. The score: Phila. . . 022001200—7 11 1; Chicago . . . 32001300—8 14 2. Batteries: Johnson, Leibold, Parham and Haley, Peinlich; Russell, Danforth and Lynn.

New York-St. Louis.
ST. LOUIS, Mo., Sept. 21.—A batting rally by St. Louis in the eighth after New York had tied the score in their half, gave St. Louis yesterday's game 7 to 3. Score: New York . . . 000000210—3 7 1; St. Louis . . . 20100004—7 12 2. Batteries: Russell, Fisher and Walters, Alexander, Groom and Hartley.

Both league leaders—Dodgers and Red Sox—today have a lead of 1½ games over their nearest rivals—the Phillies and White Sox.

This habit of pitching double-headers is getting common these days. Demaree successfully performed the task against the Pirates.

Fifteen for the Giants. Two more to their record on the first trip out.

Star Team Will Play Lima Boys Next Sabbath

Great preparation is being made by members of the Industrial league for the contest next Saturday with the Lima Independent club. An all-star team will face the local semi-pro team and it can be easily seen that they will have to show some speed to take the measure of the industry boys.

The line-up of the Independent club will be intact. The make-up of the team representing the Industrial league has not been entirely decided, but it is known positively that Big Ed Williams of the East Iron club will do the twirling for this club. Wesby, a twirler of no mean ability, who has been doing duty on several of the Industrial league clubs, will be on the reserve list.

In spite of the lack of practice Manager Rousculp of the team representing the league, states that he is confident that they will give the Independent club a good run for their money. The team will be largely made up of men that have shown class with the stick. As there are a number of 300 hitters in the league, there is little doubt but that they will present a strong offense.

Owing to the importance of the event one of the largest crowds of the season will probably be on hand to witness the contest. The Independents with a record of two games lost out of twenty, have already won a large following of loyal fans, as have the members of the Industrial league. To take care of the crowd expected a number of extra seats are already being constructed.

The Reds threw a damper on the Braves' pennant sport when they fairly swamped Stallings' band with a fusillade of base hits.

It begins to look as if the final result in the National will be decided when the Phillies and Dodgers clash later on.

A Dandy Opportunity for a Grocery

Recently one of Lima's best grocery men remarked that it seemed to him there was an elegant location for a grocery on Elizabeth street between High and North. To the north, northwest and west it is several blocks before you come to a grocery, while it is a block or more on the south or southeast before you would meet a competitor.

MARKETS

COPPER TRADE IS
BIG ON WALL ST.

NEW YORK, Sept. 21.—Nearly all the speculative interest in the stock exchange at the opening today was attached to the trading in the copper shares, because of the persistent accumulation of Anaconda and reports of large transactions in the metal trade. There was a large crowd in Anaconda and first sales of this stock were recorded as 12,000 shares, from 95 1/2 to 95. During the next 15 minutes many large transactions were made at prices ranging from 95 1/2 to 95 3/4. Each copper made the greatest gain of this group, advancing 2 1/2 points to 99 1/2 followed by a reaction to 98 1/2.

Price movements in other issues were similar to those noted for many days past. Strength was shown in the initial trading, but a supply quickly appeared and sharp declines occurred. Baldwin Locomotive, after selling at 89 1/2 declined to 84 1/2. Crucible Steel, after opening at 92 1/2, dropped to 89. Industrial Alcohol, which made a gain of 1 1/2 to 129 1/2, declined to 127 1/2.

Steel common started 1/4 higher at 108 1/2 but later receded to 107 1/2.

Common Mistake.
"What's your opinion of Bommas-tor?" "Well, when I first met him he impressed me as being a leader of men, a 10,000-volt human dynamo, a clarion-voiced car who would brook no opposition; but when I met him the second time, in his office, I sized him up for a pusillanimous mouse." "Where did you meet him the first time?" "On the telephone."

Unclaimed Certificates.
The statement that Cervantes lost an arm at the battle of Lepanto is incorrect. This common mistake, as Mr. H. E. Watts and other authorities have pointed out, is due to forged portraits and fraudulent statues. The use of his wounded left hand was never fully recovered, as he himself says, "El movimiento de la mano izquierda"—that is to say, he lost "the movement, or use, of the left hand." It is more over, obvious that he could not have served for four years as an infantry soldier after the total loss of a hand. There is, as a matter of fact, no portrait of Cervantes that can be proved to be contemporary, and only one for which any plausible evidence at all can be produced. So that we must be satisfied with his own description of himself as given in the prologue to the "Exemplary Novels."

NEWSPAPER ARCHIVE

H. C. SCHEIDE WILL RECEIVE \$2000 FROM ESTATE OF BROTHER

By the terms of a will left by his brother, Major Charles E. Scheide, late secretary and treasurer of the mining company of the United States Steel corporation, with headquarters in New York City, Henry C. Scheide, retired oil man, residing on Rural Route No. 4, Lima, in Shawnee township, will receive the amount of \$2,000, as will a step-sister, Mrs. Mary Eavenson, of 1504 Mt. Vernon street, Philadelphia.

The rest of his estate, aggregating over \$20,000, will be divided in equal shares between his three nephews and a niece. Of this number William T. Scheide, son of Henry C. Scheide of Shawnee township, and Clayton W. Scheide of Bryant, Ind., also a son of the Shawnee township oil man, will be included. Two children, a son and daughter, of the late William T. Scheide, a brother, will share with them.

Henry C. Scheide of Shawnee township this morning said to the "Times-Democrat" that he had received word of the filing of the will in the court of Surrogate John P. Co-halan, in New York. The document was executed in the presence of three witnesses on November 4, 1907, and names George Welwood Murray, lawyer and friend of the dead man, of Montclair, N. J., without bond, as executor.

Mr. Scheide said this morning he had some intimation that he was to profit by the will, but did not know the amount he was to receive nor had little idea how much the estate

amounted to. He said his brother was never married.

Cut Off Youngest Brother.

The document cuts off his youngest brother, Millard Scheide, of Franklin, Pa., without a cent. He was a step-brother, as was Mrs. Eavenson a step sister. Asked if he might contest the will, Mr. Scheide said he saw no reason why Millard Scheide could do so. The amount is given to the step-sister, so the document designates, "in recognition of her loving care of our father during his last illness."

Major Scheide died at Seagater, Long Island, on August 18 last, and was laid to rest from the home of his sister, Mrs. Eavenson, in Philadelphia. Mr. Scheide said his brother had never visited him in this city, but that they always kept in touch with each other by letters.

Just exactly how large an estate he left will not be known until his will is admitted to probate. Provided his ignored brother starts no content, a transfer tax state appraiser, under the direction of the court, is appointed, under the inheritance tax, to appraise it so as to see how much is taxable and a report of such appraisal, as the law directs, is filed with the clerk of the surrogates court as a public document.

If no contest is started and no time is lost by the executor a report of such appraisal can be made up and filed within the next few weeks.

William T. Scheide, named as one of the nephews in the will, resides on R. F. D. No. 1. His father owns 10 acres of land on route No. 4 and his mother 10 acres of land on route 1.

DIES AT WAPAKONETA.

Mrs. Mary C. Swartz, 69 years old, wife of Henry Swartz, died at her home in Wapakoneta Tuesday night, after a long illness from Bright's disease. She was a sister to Jason H. Lusk of Lima.

INFANTILE PLAGUE QUARANTINE LIFTED

The quarantine for a month which has been over the Elmer Luglioli home, west of Bluffton, has been lifted and traces of infantile paralysis removed, according to the theory of health officers who have just issued the order. Alberta, 19-month-old daughter of the family, showed little effects of the disease. Her brother, Maynard, aged four years, is still paralyzed from the knee down, on one side of the body.

No other cases of the disease have appeared in Bluffton or that community.

Changing Seasons Bring Colds. "Stuffed up head," clogged-up nose, tight chest, sore throat are sure signs of cold, and Dr. King's New Discovery is sure relief. A dose of this combination of antiseptic balsams soothes the irritated membrane, clears the head, loosens the phlegm, you breathe easier and realize your cold is broken up. Treat a cold persistently; half-way measures leave a lingering cough. Take Dr. King's New Discovery until your cold is gone. For 47 years the favorite remedy for young and old. VICE CRUSADE BEGINS.

STEBENVILLE, O., Sept. 21.—Following an investigation here by imported detectives, the grand jury has brought in 20 secret indictments against alleged keepers of immoral houses.

An hour later the biggest vice raid ever made here was begun and the accused were arrested. Two pleaded guilty and drew fines of \$300 and costs. The others in jail under \$1,000 bonds.
